SPECIAL INSTRUCTIONS FOR ONLINE BID SUBMISSION:

Instructions to the Bidders to submit the bids online through the Central Public Procurement Portal for e-Procurement are at <https://eprocure.gov.in/eprocure/app>. The bidders must carefully follow the instructions.

- Possession of valid Digital Signature Certificate (DSC) and enrolment/registration of the contractors/bidders on the e-procurement/e-tender portal is a prerequisite for e-tendering.
- Bidder should do the enrolment in the e-Procurement site using the "Click here to Enroll" option available on the home page. Portal enrolment is generally free of charge. During enrolment/registration, the bidders should provide the correct/true information including valid e-mail-id. All the correspondence shall be made directly with the contractors/bidders through e-mail-id provided.
- Bidder need to login to the site through their user ID/ password chosen during enrolment/registration.
- Then the Digital Signature Certificate (Class III Certificates with signing key usage) issued by NIC/SIFY/TCS/nCode/eMudra or any Certifying Authority recognized by CCA India on e-Token / Smart Card, should be registered.
- The DSC that is registered only should be used by the bidder and should ensure safety of the same.
- Contractor / Bidder may go through the tenders published on the site and download the required tender documents/ Annexures for the tenders he/she is interested.
- After downloading / getting the tender document/ Annexures/ Appendices, the Bidder should go through them carefully and then submit the documents as asked, otherwise bid will be rejected.
- If there are any clarifications, this may be obtained online through the tender site, or through the contact details. Bidder should take into account the corrigendum / addendum published before submitting the bids online.
- Bidder then logs in to the site through the secured log in by giving the user id/ password chosen during enrolment/registration and then by giving the password of the e-Token/ Smart Card to access DSC.
- Bidder selects the tender which he/she is interested in by using the search option & then moves it to the 'my tenders' folder.
- From my tender folder, he selects the tender to view all the details indicated.
- It is construed that the bidder has read all the terms and conditions before submitting their offer. Bidder should go through the tender Annexures and appendices carefully and upload the documents as called for; otherwise, the bid will be rejected.
- Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document/ Annexure and generally, they can be in PDF/xls/rar/zip/dwf formats. If there is more than one document, they can be clubbed together and can be provided in the requested format. Each document to be uploaded through online

for the tenders should be less than 2 MB. If any document is more than 2MB, it can be reduced through zip/rar and the same can be uploaded, if permitted. Bidders Bid documents may be scanned with 100 dpi with black and white option. However if the file size is less than 1 MB the transaction uploading time will be very fast.

- Bidder should take into account the corrigendum / addendum published from time to time before submitting the online bids.
- The Bidders can update well in advance, the documents such as certificates, annual report details etc., under My Space option and these can be selected as per tender requirements and then send along with bid documents during bid submission. This will facilitate the bid submission process faster by reducing upload time of bids.
- While submitting the bids online, the bidder reads the terms & conditions and accepts the same to proceed further to submit the bid packets.
- Bidder should submit the EMD as specified in the tender. The original should be posted/couriered/given in person to the Tender Inviting Authority, within the bid submission due date & time for the tender. **Scanned copy of the instrument should be uploaded as part of the offer.**
- The bidder has to select the payment option as offline to pay the EMD as applicable and enter details of the instruments
- The details of the DD/BC, physically sent, should tally with the details available in the scanned copy and the data entered during bid submission time. Otherwise submitted bid will not be acceptable.
- The bidder has to digitally sign and upload the required bid documents one by one as indicated. Bidders to note that the very act of using DSC for downloading the bids and uploading their offers shall be deemed to be a confirmation that they have read all sections and pages of the bid document including General conditions of contract without any exception and have understood the entire document and are clear about the requirements of the tender requirements.
- The bidder has to upload the relevant files required as indicated in the covered content. In case of any irrelevant files, the bid will be rejected.
- **If the price bid format is provided in a spread sheet file like BoQ_xxxx.xls, the rates offered should be entered in the allotted space only and uploaded after filling the relevant columns. The Price Bid/ BOQ template must not be modified/replaced by the bidder, else the bid submitted is liable to be rejected for this tender.**
- The bidders are requested to submit the bids through online e-tendering system to the Tender Inviting Authority (TIA) well before the bid submission end date & time (as per Server System Clock). The TIA will not be held responsible for any sort of delay or the difficulties faced during the submission of bids online by the bidders at the eleventh hour.
- After the bid submission (i.e after Clicking "Freeze Bid Submission" in the portal), the acknowledgement number, given by the system should be

printed by the bidder and kept as a record of evidence for online submission of bid for the particular tender and will also act as an entry pass to participate in the bid opening date.

- The time settings fixed in the server side & displayed at the top of the tender site, will be valid for all actions of requesting, bid submission, bid opening etc., in the e-tender system. The bidders should follow this time during bid submission.
- All the data being entered by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered will not be viewable by unauthorized persons during bid submission & not be viewable by any one until the time of bid opening.
- Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key. Further this key is subjected to asymmetric encryption using buyers/bid openers public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized bid openers. The confidentiality of the bids is maintained since the secured Socket Layer 128 bit encryption technology is used. Data storage encryption of sensitive fields is done.
- The bidder should logout of the tendering system using the normal logout option available at the top right hand corner and not by selecting the (X) exit option in the browser.
- For any queries regarding e-tendering process, the bidders are requested to contact as provided in the tender document. For any further queries, the bidders are asked to contact over phone as mentioned in the CPP website or send an email to - cphp-nic@nic.in.

As time is the essence of the contract, the work period mentioned in the Service Order should be strictly adhered to. Otherwise, LD clause will be applicable /enforced. If the supplier fails to provide the services mentioned in the order within the stipulated period, the Director, ARCI shall without prejudice to any other right or remedy available in law, levy a penalty for such delay by way of liquidated damages, at 0.5% per week of delay or part thereof, subject to a maximum of 10% of contract value. Such LD will be deducted from any amount due or which may become due to the supplier.

VI. Order acceptance

The successful bidder, on award of contract/order, must send the contract/order acceptance in writing, within 15 days of award of contract.

VII. Award of contract:

ARCI reserves the right at the time of award of Contract to increase or decrease the quantity of items specified in the Schedule of Requirements without any change in price or other terms and conditions.

VIII. Corrupt or Fraudulent Practices:

ARCI requires that the bidders who wish to bid for this project have highest standards of ethics. ARCI will reject a bid if it determines that the Bidder recommended for award has engaged in corrupt or fraudulent practices while competing for this contract. ARCI may declare a vendor ineligible, either indefinitely or for a stated duration, to be awarded a contract if it at any time it is determined that the vendor has engaged in corrupt and fraudulent practices during the execution of contract.

IX. Interpretation of the clauses in the Tender Document/Contract Document:

In case of any ambiguity/dispute in the interpretation of any of the clauses in this Tender Document, Director, ARCI's interpretation of the clauses shall be final and binding on all parties.

X. Arbitration

In case of Dispute or difference arising between the Purchaser and a supplier relating to any matter arising out of or connected with this agreement, such disputes or difference shall be settled in accordance with the Indian Arbitration & Conciliation Act, 1996, the rules there under and any statutory modifications or re-enactments thereof shall apply to the arbitration proceedings. The dispute shall be referred to arbitrator appointed by the Director, ARCI. The award of the arbitrator so appointed shall be final, conclusive and binding on all parties to this order.

The venue of the arbitration shall be the place from where the purchase order/contract is issued.

Notwithstanding any reference to arbitration herein, the parties shall continue to perform their respective obligations under the Contract unless they otherwise agree.

SCOPE OF SUPPLY

Functional description:

The automated torch cleaning station is intended to ensure process stability for robotised Wire Arc Additive Manufacturing (WAAM) by MIG/MAG welding facility at ARCI, Hyderabad. The torch cleaning system shall consist of Automatic Torch Cleaning Station, Automatic wire cutting unit and automatic anti-spatter fluid injection unit. Automatic Torch Cleaning Station shall have compatibility with robotic arms that allows for coordinated operations and designed to be integrated with existing automated welding systems where in cleaning cycles are to be programmable with robotic welding procedures

Scope of Supply:

The torch cleaning station shall consist of automatic torch cleaning system, automatic wire cutting unit and automatic anti-spatter fluid injection unit to be integrated and synchronized with existing robotic (6+2 axis Robot, make-KUKA) Wire Arc Additive Manufacturing (WAAM) by MIG/MAG (Fronius TPS 3200 CMT) welding facility at ARCI, Hyderabad shall be based on the latest available proven technology with international practices and standards.

1. Automatic Torch cleaning system-01 Set
2. Automatic wire cutting unit-01 Set
3. Automatic anti-spatter fluid injection unit-01 Set
4. Essential Spares and Consumables-01 Set
5. Safe delivery, installation, commissioning, demonstration and performance test at ARCI-01 work
6. Training of ARCI personnel- 01 work

Technical Specification:

1. Automatic Torch cleaning system

- 1.1. The system shall be Electrical/pneumatically operated. please specify
- 1.2. Specify Compressed air details like size of tubing, pressure range etc.,
- 1.3. Specify Cleaning Cycle Time
- 1.4. Specify Power Supply requirement
- 1.5. Diameter of wires shall be used: 0.8-1.2mm of Solid wire
- 1.6. Filler wire materials shall be used: Mild Steel, stainless steel, Nickel Based superalloy, Aluminium alloy, and Copper alloy

2. Automatic wire cutting unit

The high quality cutting of MIG/MAG welding wire length is required to achieve good arc ignition and accurate TCP measurement through integrative action of clamping and cutting.

- 2.1. Compressed air supply details to be specified
- 2.2. Specify Operating pressure
- 2.3. Specify Electrical requirements
- 2.4. Specify maximum Clamp nozzle diameter

3. Automatic anti-spatter fluid injection unit

It shall directly and economically spray anti-spatter agent on welding torch nozzle to reduce welding spatter adhesion and the unit also to be provided with residual anti-spatter agent collection tray.

3.1. Fixing bracket for attaching the anti-spatter fluid injection unit to torch cleaning station

3.2. Collecting tank and filter for excess anti-spatter agent

3.3. Pneumatic and electric connection details for spray activation

3.4. Provide details of anti-spatter fluids

4. Essential Spares and Consumables

Supplier should quote Essential spares & consumables for 2 years of continuous operation (at 12 hrs per day basis) of the AUTOMATIC MIG/MAG TORCH CLEANING STATION. Complete list of spares & consumables is to be provided (along with the offer itself), giving individual item's part identification no, its application, life (in hrs of use).

5. Installation & Commissioning:

The automated torch cleaning station shall be installed and commissioned at the ARCI site and smooth operation of the system for the intended purpose shall be demonstrated.

- Integration of the automated torch cleaning station with existing WAAM system i.e The robotised Wire Arc Additive Manufacturing (WAAM) by MIG/MAG welding facility at ARCI, Hyderabad consists of Fronius Welding power source (TPS 3200 CMT communication protocol – ETHERCAT), KUKA 6 +2 axis robotic work station, Robot controller, Robotic Welding Torch, Wire feeder drive unit, dual axis positioner (Tilting & Rotating) along with Robotic Torch (gun), Robacta Push-Pull unit (CMT W/F ++/8.25m), and shock sensor (Typ: CAT2 of BINZEL make)
- For interfacing, integrating & synchronizing with the robot and TPS3200 CMT Welding system, any necessary help if required from KUKA/Fronius to be arranged by supplier.
- Acquaintance of all required details for interfacing and integrating with the CMT welding systems and Robotic system from ARCI is the responsibility of the supplier.
- Cable layout, connection and communication between robot, controller, dual axis positioner, CMT Power Source.
- Input / Output Configuration and testing.
- Configuration of robot programming input/output and validation

6. Training at ARCI site for Scientists and Technical persons:

The training programme shall be covered for detailed operation and maintenance of the automated torch cleaning station installed, interfaced and synchronized with the existing robotised WAAM system for minimum of three persons.

7. Acceptance Criteria

Full functionality of the torch cleaning system to be demonstrated by the supplier at ARCI for welding/Overlay process through robotic programme on plates/tubes made of Carbon steel and Aluminium using respective filler wires at ARCI. The required materials for performance experiments would be supplied by ARCI.

8. General

- All the required safety features should be incorporated for safety of operator and the instrument.
- First filling of all required anti spatter fluid, reamers/brushes/abrasive, cutting blades etc., required for the Automatic Torch cleaning system, Automatic wire cutting unit and Automatic anti-spatter fluid injection unit to be supplied by supplier.

- All internal piping's and connections between Automatic Torch cleaning system, Automatic wire cutting unit and Automatic anti-spatter fluid injection unit shall be in the scope of the supplier.
- Pre-installation requirements, like space (General Arrangement - GA) plan, power supply, any other essential requirements which are to be kept ready / completed by ARCI before supply of instrument, must be listed by the bidder clearly in their bid to avoid any delay in Installation & Commissioning of instrument.

9. Documentation

User manual and service manual of the entire system shall cover detailed system configuration safety instructions, maintenance schedule with possible errors and troubleshooting along with certificates for general compliance with standards, safety & protection to be provided.

10. Warranty

The system must be guaranteed / warranted for a period of minimum one year (Un-conditional warranty) from the date of its satisfactory installation, commissioning, integration and demonstration against all manufacturing defects. If the system is found to be defective during this period, the whole automated torch cleaning station or part thereof will have to be repaired/replaced by the supplier free of cost to ARCI (all and sundries).All the software updates if any during the warranty period shall be supplied, installed and trained to our personnel on real time basis at free of cost.

TECHNICAL COMPLIANCE STATEMENT

Technical bids will be evaluated based on following aspects:

1.1. **Compliance statement:** Technical should be provided as a table (representative format given below), containing the following columns: i) ARCI’s specifications, ii) the corresponding number/ value for the specification in the instrument offered by the supplier, iii) a statement whether there is compliance or not, iv) explaining deviation(s) if any, and v) offered item no/ model no/ part no. Please provide related officially published brochures, data sheets and application sheets.

Sl. No	Name of Specifications / Parts / Accessories of Tender Enquiry	Offered Technical Specification of Quote Model / Part / Accessory	Compliance Whether Yes or No. A just Yes or No, where specific details are required, may lead to disqualification	Deviation, if any to be indicated in unambiguous terms (The compliance / Deviation should be supported by relevant Technical Literature)	Technical Justification for the Deviation, if any. If specification is superior / inferior than asked for in the enquiry, it should be clearly brought out in the justification
